Priyanshu Upadhyay

Data & Digital Solutions Consultant |Project Controls Specialist

Microsoft Fabric | Power BI | Power Platform | Data Engineering | Automation | AI Enablement

Luleå, Sweden |Authorised to work in Sweden priyanshu.electrical@gmail.com +46 736676762 Priyanshu Upadhyay

SUMMARY

Senior **Data & Digital Solutions** Consultant with **15+ years** of **international experience** delivering **enterprise analytics**, **project-controls systems** and **digital transformation** initiatives across **Sweden, Denmark, Italy and global EPC** environments.

Specialized in **Microsoft Fabric, Power BI and Power Platform**, with hands-on experience designing **Lakehouse and Warehouse solutions**, **PySpark** transformations, data **pipelines**, **semantic** models, **business applications**, workflow **automation**, enterprise reporting and role-based security.

Strong track record of translating **business requirements** into **scalable digital solutions** that improve **decision-making, automate manual processes**, and **enable data-driven operations** across large organizations. Experienced working with **executive stakeholders**, **project leadership** teams, and **cross-functional business** units throughout **Europe and global delivery** environments.

EXPERIENCE

Report Leader – Data Analyst | ***Functional focus: Microsoft Fabric, Power Platform & Project Controls Solutions***

IDOM Consulting, Engineering, Architecture – Sweden **Feb 2026 – Present**

(Onsite – SSAB Green Steel Megaproject, EUR 4.5B)

- **Designed** and implemented an **enterprise data architecture** and **reporting platform** using **Microsoft Fabric** Lakehouse, Warehouse, **PySpark** notebooks, **semantic** models and **Power BI**.
- **Developed** and orchestrated **20+ ETL/ELT** workflows to **ingest**, **validate** and harmonize **planning, cost, engineering, manpower, risk** and **quality data** from Primavera P6, Aconex, SharePoint, Excel, Dataverse, APIs and business tools.
- Built Canvas **Power Apps** and **Dataverse**-based **applications** for **issue** and **action management**, supporting assignment, **status tracking**, filtering, notifications and meeting workflows.
- **Automated** data **collection**, **validation** and operational workflows through **Power Automate**, **reducing manual** handling and improving **reporting reliability**.
- **Developed reusable Power BI semantic models**, **executive dashboards** and reporting **applications** providing consolidated project-performance visibility.
- **Implemented** layered **access controls** using **Microsoft Entra ID** groups, **Fabric** workspace roles, **Warehouse** and **Lakehouse** permissions, Power BI app audiences and **row-level security**.
- Configured Microsoft Fabric **Data Agents** and **Copilot Studio** experiences to provide governed **natural-language** interaction with project-controls information.
- **Collaborated** with **15+ cross-functional** stakeholder groups to **translate business requirements** into **scalable data products**, applications and automation **solutions**.
- Built **executive dashboards** and **digital control tower** providing a **single source of truth** for project leadership and stakeholders.

SELECTED SOLUTIONS

- **Project Controls Digital Platform**
  Microsoft Fabric, Power BI, Power Apps, Power Automate, Dataverse, SharePoint and AI-enabled analytics integrated into a governed project environment.
- **Issue & Action Management Application**
  Power Apps and Dataverse solution supporting issue capture, action assignment, status tracking, filtering, notifications and meeting workflows.
- **Enterprise Reporting and Control Tower**
  Power BI application supported by reusable semantic models and Fabric-based data pipelines for executive and operational reporting.
- **AI-Assisted Project Controls Analytics**
  Fabric Data Agent and Copilot Studio implementation providing governed natural-language interaction with project-control datasets.

Project Controls Specialist - Fluor Corporation - Denmark **May 2024 – Jan 2026**

(Onsite -Fujifilm Biotechnologies – Milky Way Life Science, EUR 1.5 billion)

- Facilitated efficient communication of **project progress, risks, and schedule updates** by utilizing advanced **reporting tools and dashboards**, supporting timely management **decision-making**.
- Consolidated contractor schedules and progress information into standardized dashboards used by project leadership, improving **schedule visibility by 40%** across project team.

- Collaborated with a team of **20+ Construction Leads/Managers** to orchestrate the implementation of an efficient Project Process.
- **Enhanced decision-making** by collecting, interpreting, and presenting **quality data** in a clear and timely manner.
- Monitored and evaluated reports from **40 contractors**, identifying discrepancies and ensuring compliance with Fluor systems, which resulted in a **25% reduction in reporting errors.**
- **Partnered with Project Directors** to conceptualize reporting systems, enhancing project phase **visibility by 40%.**
- **Boosted performance 20%** on behalf of clients by recommending process improvements based on insights gained from **in-depth data analytics.**
- Engineered over **20+ Power BI dashboards, SQL, Python** and Excel VBA reports, slashing report generation **time by 50%.**
- Delivered 2-3 **stakeholder training** and **onboarding sessions per week** covering **reporting processes**, **systems** and **data requirements**.

Business Transformation Admin - NLB Services (APAN Energy – Guyana, South America) October 2023 - May 2024

- Enhanced the effectiveness and creditability **of digital construction** by partnering **with C-suite executives** to identify performance gaps and implement digital solutions.
- Formulated over **10 business policies and procedures** encompassing HR policies, accounts and purchasing processes, safety manuals, and operational guidelines.
- Crafted a comprehensive **Request for Proposal (RFP)** for an Enterprise Resource Platform **(ERP/SAP)** and designed the overarching architecture of a digital ecosystem.

Technical Manager - IT System – Teknobuilt (Saipem Daewoo Chiyoda JV – Milan, Italy) April 2019 - October 2023

- **Acted** as **product owner** for enterprise systems across **USD 8 Billion LNG project**, integrating **20+ platforms** into a unified system.
- **Facilitated 20+ design** to help customers define their **roadmap**, and managed **agile** design and development **sprints** to create **MVP solutions**.
- **Efficiently demonstrated** products to **35+ international clients** (Shell, Jacobs, Mc Dermott, EY, KPMG, McKinsey, ARAMCO, etc.).
- **Steered 200+ user training** and onboarding on product in 2 years.
- Brainstormed and created **20+ data analytics visual dashboards** for a top EPC client on an $8B project which helped the client to achieve real-time visibility of the project. Skills utilized: **Power BI, DAX and SQL**.
- **Implemented AWP project control system**, involving **engineering, construction, procurement, quality, close-out and commissioning** modules for **NLNG- Shell USD 8 Billion LNG project**.
- **Integrated data of 20+ systems including Engineering, Construction, Procurement, Quality & Completions, extensive Health & Safety module** into single platform for better visibility.

EDUCATION

Bachelor of Technology in Electrical Engineering

Uttar Pradesh Technical University • India • 2010

SKILLS

- **Data Analysis**
  PySpark | SQL | Python | Data Modelling | Power BI | ETL / ELT | REST API | Advance Excel - VBA | DAX | KPI Development
- **Microsoft Fabric**
  Medallion Architecture | Bronze/Silver/Gold Layers | Lakehouse | Warehouse | Dataflow Gen2 | Data Pipelines | Notebook | Semantic Models | Star Schema | OneLake | Data Agents | Deployment Pipelines | Security & Governance
- **Power Platform**
  Power Apps | Power Automate | Dataverse | SharePoint Lists | AI Builder | Copilot Studio
- **AI & Automation**
  AI Agents | Fabric Data Agents | Copilot Studio | Grounded Conversational Analytics | Agent Configuration | Workflow Automation
- **Security & Governance**
  RBAC | Microsoft Entra ID | Row Level Security | Data Governance | Data Quality | Access Management
- **Tools**
  Azure | VS Code | SSMS | MySQL | Jupyter Notebook | Primavera | Power BI | Navisworks | Postman | Jira | SAP | ERP | Aconex
- **Domain**
  Project Controls | Primavera P6 | Oracle Aconex | AWP – Advance Work Package | Schedule | Cost | Progress | Risk and Quality Reporting
- **Industry Exposure**
  CAPEX & OPEX | Pharma & Life Sciences | Oil & Gas | Green Energy | Green Steel | IT & Digital Transformation
